MENT.-Col. Casey has received information of the point of the capstone of the Washington monument. It is a small pyramid about seven inches high, and about five inches wide at the base, the apex being a point sharp enough to prick flesh.
This is said to be the largest casting of aluminum that has ever been made. The lightning rod, which runs through the capstone, is to be fastened which runs through the capstone, is to be fastened which runs through the capstone, is to be fastened which runs through the capstone, is to be fastened whith runs through the capstone, is to be fastened whith runs through the capstone, is to be fastened whith runs through the capstone, is to be fastened as ignorant they are in some places. It is expected to arrive here next week. The keystone, which binds the central ribs which support the roof of the monument, was set vesterday afternoon. It is cruciform in shape, three feet high and with arms two feet long, the extreme width being five feet. SENATOR GORMAN'S RESIDENCE IN THIS CITY .-

Senator Gorman, of Maryland, has rented, house was formerly owned and occupied by Mr. R. C. Fox, who sold it last year to Mr. Gunnell, of New York. Mr. Fox and family will occupy a suite in the Richmond flats for the winter. The locality is one of the most fashionable in the city, and among those occupying houses in this block are Senators Edmunds and Bayard, Mr. Justice Miller, Representative Lyman and Prof. Spencer F. Baird.

THE MONITORS NEED LOOKING AFTER.—The naval board of inspection, Commodore De Kraft, president, in a report to the admiral of the navy, calls special attention to the condition of the monitors Mahopac, Canonicus, Lehigh, Manhattan, Catskill, and Ajax, now at City Point, Va., and says if the country depends upon monitors as important elements in the defense of its harbors it is of vital importance that they be kept in condition to meet any emergency. Before any of them could be placed in active service, the report says, it would be necessary to dock them and overhaul their steering gear and test their boilers. Four out of the six are not in condition to move with their own steam, and it is not believed that they can be put in condition for even temporary active service until they are supplied with new boilers.

Brooks, chief of the secret service division of the Treasury, has made a report of the ended June 30, 1884, to the Solicitor of the Treasury. The number of arrests made were 423. Fortynine persons were acquitted of the charges against them and five prisoners escaped from custody. The amount of counterfeit money captured or surrendered during the year was \$634,630, a large proportion of which was in flash notes. A marked decrease is noted in the circulation of cards in imitation of United States treasury notes and metal tokens in imitation of United States coin for advertising purposes. Manufacturers, becoming better acquainted with the requirements of the law, have substituted other designs for the initation of gold and silver coins for use as bangies. The report says the events of the past year give evidence of a revival of the manufacture of counterfeit paper money which was practically suspended during the years 1882 and 1883. Chief Brooks is of opinion that there is to-day in the hands of counterfeiters nearly \$300,000 of new

spurious notes of the denominations of \$10 and \$20, which have been produced since January 1st, 1884. Promotions in the Interior Department In consequence of the appointment of Judge for Department, to the position of deputy commissioner of pensions, the following promotions have been made: Nathaniel S. Howe, Mass., from law clerk at \$2,250 to \$2,500; S. W. Rittenhouse, D. C., from \$2,000 to \$2,250; F. W. Bigelow, Mich., from \$1,600 to \$2,000.

Henry C. C. Atwood, United States consul to San omingo, a colored republican politician of Louisiana, one of Kellogg's workers, is at the Ebbitt house. He talks freely of the condition of the colored people in the south. He says he took the stump and spent money for Blaine in his state, not because he liked Blaine, but as a party man. The colored men in the south, he says, do not like Blaine on account of his opposition to the Force bill, and it was impossible to get up any enthusi-asm for him.

"The colored people in the south," he said, "have been deserted by the party since 1876, and they are not depressed by Blaine's defeat. They think, on the contrary, that the election of Cleveland is going to prove a benefit to them. You see there are two factions in the democratic party in the south—the ring democrats or bourbons and the silk stockings, who are the business men and best tizens in the south. These will be thrown further apart by Cleveland's election. They will form two parties, and they will be the only parties in the south. The colored people will divide, some height of the war, and \$80,000,000 was refunded into following the bourbons and some the silk stockings. There won't be any race lines. There will be two white parties, each with a colored following, which will greatly improve the condition of ing, which will be a set of the condition of ing, which will be a set of the condition of ing, which will be a set of the condition of ing, which will be a set of the condition of the co be two white parties, each with a colored following, which will greatly improve the condition of the colored people. "Yes, that's all bosh! Why didn't he think of all that when he voted against the Force bill? If he nad, probably he would not have been defeated. No, the statement that the colored people in the south were not allowed to vote is not true. There is some intimidation in the country districts in the south, but very little in the cities. Certainly Mr. Blaine has no cause to complain. In the third Louisiana district he got 5,000 majority, while Kellogg was deteated. The colored people vote as they please. Look at Bisbee's district in Florida, for instance. Bisbee was defeated by republican votes. We form fusions in the south and places—there are conflicts, but it grows but of the ignorance on both sides.

Blaine lost every southern supporters of Conkling, Grant and Arthur; we are nearly all Conkling, Grant, and Arthur; we are nearly all Conkling men; and the slaughter of Folger hurt Blaine as much in the south as it did in New York. The colored people in the south are going to try to have Arthur and Lincoln nominated in 1888, then some of the southern, states will go republican. If Cleveland, as President, acts as he did while governor he will be accepted to the southern and the southern are stated to the southern are sentent to the southern are southern.

VIEWS OF REPRESENTATIVE MITCHELL, OF CON-Representative Mitchell, of New Haven, Conn., arrived in the city yesterday and was warmly con-

gratulated by fellow democrats. It was in his disdent, in a report to the admiral of the navy, calls | trict that the Butler movement was counted upon to play havoc with the democrats by taking away votes enough to give Blaine the state. But Mr. Mitchell, after obtaining a renomination by acclamation, went to work vigorously. The result was that he was re-elected by a largely increased majority, and the additional votes he got aided materially in pulling Cleveland through. In conversation with a Star reporter Mr. Mitchell said that anybody who expects Cleveland to pursue the old policy of "to the victors belong the spoils" will be greatly disappointed. He anticipates a conservative policy and to exclude mere partisanship from consideration in making appointments. Mr. Mitchell added that among Connecticut democrats very little has been said so far about the make-up of little has been said so far about the make-up of

SCHEME TO KEEP REPUBLICAN OFFICE HOLDERS IN PLACE AFTER MARCH 47H.

A scheme by which numerous federal officials whose regular terms are about to expire could be retained in office under the coming democratic administration has been discussed and enlarged upon in the newspapers of late. The visit of Senator Don Cameron to this city, it has been represented was for the express purpose of outwitting President-elect Cleveland and of retaining certain political ritings of his in office in Pennsylvania. The plan mentioned is that President Arthur shall reappoint all officials, or name republican successors for them, whose terms expire or about to expire by the 4th of March and have them all confirmed by the Them it is claimed Cleveland would not be able to remove them or to put in new men as their successors, because a republican Senate would not consider the county, which would increase the demo-erate that the digures for state senator in the second precinct of the eighth ward had been reversed, those belonging to Brand (dem.) having been credited to Lomax (rep.), and vice versa. The governor refused to be interviewed, but he is a great interviewer on his own account. He is a great interviewer on his own account. He asked me a great many questions about the size and shape of the White House and about life in Washington generally, but he kept wholly aloof from politics. In the course of a general conversation, however, and by means of remarks dropped to others who happened in, I had a good opportunity for knowing that all talk about who is to get this or that office is decidedly premature. Governor Cleveland has not so much as given a serious thought as to what he will do when he gets to Washington. "It is a long way off," he says, "and I have enough to think of in the duties of my present office, without trying to dispose of any of the questions that may arise when I assume the other."

I had heard that the governor had been invited to indulge in a little Maryland duck shooting this month, so that Mr. Gorman and others might least intends to be one.
